1. Purpose of Document

The purpose of this document is to verify that the **Library Book Request System** meets the specified functional requirements and performs as expected from the end user's perspective. User Acceptance Testing (UAT) was conducted to ensure that students can successfully submit book requests, the system validates the issue date, generates a unique request number, stores request details, and sends email notifications to the librarian.

2. Test Case Analysis

Module	Total Test Cases	Not Tested	Failed	Passed
Book Request Form	4	0	0	4
Issue Date Validation	2	0	0	2
Request Number Generation	2	0	0	2
Email Notification	2	0	0	2
Library Request Table	2	0	0	2
Total	12	0	0	12

3. UAT Result

The User Acceptance Testing was completed successfully. All major functionalities of the Library Book Request System worked as expected. Students were able to submit book requests, issue date validation prevented invalid entries, unique request numbers were generated automatically, and email notifications were successfully sent to the librarian. The system met all the project requirements and was accepted for use.
